B91 3PD

5th January 2023

As you are aware, it is the intention that on the 31st March, 2023 Tudor Grange Academy Nuneaton will be part of the Tudor Grange Academies Trust family of schools and we wish to express thanks and appreciation to the community for their continued support and encouragement.

Students, parents, staff and governors have worked exceedingly hard to ensure the school continues to improve as we have negotiated the pressures of transferring from one Trust to another. It is this support and spirit, alongside that of the Trust, which now provides the foundation to build even greater success and opportunities for the young people of the community.

Many of you will already know that I am an Executive Principal for the Trust and I have been working with Nuneaton Academy, specifically the current interim Principal, Peter Gilbride. I will continue to support Midland Academies Trust to oversee and support the school during this transition period. This work will include me working closely with the senior team, organising training and development for current staff and overseeing the recruitment of new staff to the Academy.

We now wish to appoint a full-time permanent Principal and we will be posting a national advert for this post. We seek to establish a permanent Principal for September 2023 to direct and lead our school working closely with the community, governors and the Trust to secure an outstanding provision. The advert and interview process will take place in this academic term and conclude at the end of January 2023, and we look forward to introducing the Principal of Tudor Grange Academy Nuneaton in the spring term, with them starting in post September 2023 or sooner by agreement.

Thank you once again for your ongoing support and efforts to make sure the Academy remains on a steady path to becoming outstanding provision.

Mr D Turner
Executive Principal
Tudor Grange Academies Trust
