DESIGN TECHNOLOGY | CHARACTER IN DESIGN TECHNOLOGY

DESIGN • MAKE • SOLVE • IMPROVE

Character is your superpower

Be Creative • Make a Difference • Skills for Life

In Design Technology we use our Norms, Values and Character every day to design, make, solve and improve.

Ideas
Skills
Creativity
Future.

OUR NORMS IN ACTION

How We Learn Every Day

RESPECTFUL

- Listen actively and respect different ideas.
- Value others' designs and viewpoints.
- Take pride in our learning environment and equipment.

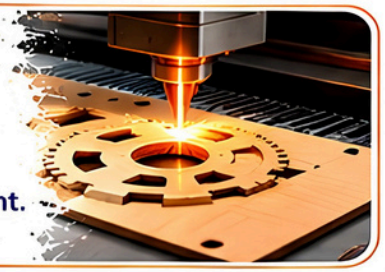

RESPONSIVE

- Be ready to learn.
- Act on feedback to improve our designs.
- Embrace challenge and try new techniques.

RESOLUTE

- Persevere through difficulty.
- Learn from mistakes.
- Never give up on improvement.

OUR VALUES IN ACTION

In our Design Technology lessons, we demonstrate the six Nuneaton Academy Values through our creativity, atitudes and approach to learning.

AMBITION

- Aim high with our design ideas and outcomes.
- Set challenging design goals.
- Take pride in producing high-quality work.

CONFIDENCE

- Believe in our creative abilities and potential.
- Share and explain our design ideas.
- Try new materials, tools and techniques.

CREATIVITY

- Explore and generate imaginative ideas.
- Experiment with materials and processes.
- Take creative risks and think differently.

RESPECT

- Value different design ideas, cultures and perspectives.
- Listen respectfully during discussions and critiques.
- Treat tools, equipment and materials with care.

ENTHUSIASM

- Approach lessons with a positive attitude.
- Stay engaged and curious about new ideas.
- Show excitement when exploring new technologies.

DETERMINATION

- Persevere when design challenges are difficult.
- Learn from mistakes and use feedback to improve.
- Refine and develop our designs to a high standard.
